Sir,

I am a regular student of Faculty of Computer Science and Engineering of your renowned institution of BUBT. I have got myself admitted in Spring Semester 2018 in your university. I belong to intake 38, Section 2, bearing ID: 17182103064 and I am holding CGPA: 3.95 currently also I held 1st runner up position in BUBT INTRA UNIVERSITY PROGRAMMING CONTEST, SPRING 19(JUNIOR DIVISION) alone without a team.

I believe that you are ought to become who you are by your action and the surroundings you are in. Unfortunately, I am not able to find my peace in my current section because I am failing to find my intended environment and instead in current situation I find it very hard continuing with them. But I have good programming fellows in section 7 and they always tend to become busy in programming rather than other things. I go along with them just fine.

Therefore, I would really appreciate if you consider moving me to section 7 and oblige me thereby because day by day I am becoming depressed and I cannot continue with section 2.

Obediently Yours,

Name: Md.Dilshadul Islam
